ABOUT ME

Throughout all of my 4-H years I have held friendship close to my heart. I love to make friends and have conversations and always try to put a smile on someones face. I love to play card games and climb trees and other goofy things but also know how to get down to business with over 700 volunteer hours.

EXPERIENCE

Florida 4-H historian 2024 - Present

After becoming the current Florida 4-H historian after running for treasures and at first not succeeding, I have been improving my connections and learning more about the role as time has passed so that I could become a better fit for the position in the upcoming years. My experience in the role I am in now has helped me to improve in the skills I would need in order to best fit my role.

Three Time Exec Board Member 2021 - Present

Throughout all of my years in executive board, each time I have come to one of the camps I have continued to learn new skills, improve my public speaking, and become an overall better developed character. This has helped me to accomplish what I have today and will lead me to accomplish more in the future.

My Father. Birth - Present

As weird as it may sound my father has helped me over the years in developing a sense of initiative and leadership. As a single parent, he himself had to step up to the plate and become a leader in order to take care of me and has passed all that he has learned down the line for me to receive. Therefor the leadership skills i have learned through him as a further are improved by the skill 4-H has taught me over the years.
